Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 09 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mild with outbreaks of rain slowly spreading southeast.

Today:
Some early sunshine, and the southeast holding on to bright intervals during the morning. However, rain soon arriving into the west and slowly edging east through the day, turning lighter as it does so. Mild with a moderate south-westerly breeze. Maximum temperature 14 deg C (57 deg F).

Tonight:
A cloudy evening and night with some outbreaks of chiefly light rain and drizzle affecting the country. Some murky conditions for high ground and winds easing everywhere. Minimum temperature 8 deg C (46 deg F).

Wednesday:
Wednesday will be largely dry in the north with some bright or sunny spells developing. Remaining cloudy further south though with further drizzly rain. Light winds and remaining mild everywhere. Maximum temperature 13 deg C (55 deg F).

Outlook for Thursday to Saturday:
Dry on Thursday with low cloud and fog clearing to sunny spells. Breezy on Friday with rain clearing. Sunshine and scattered showers on Saturday. Daytime temperatures still slightly above average.
